 The Parks Commissions .....	 page 31
The Niagara Parks Commission .....	page 32
The St. Lawrence Parks Commission .....	page 35
The St. Clair Parkway Commission .....	page 39

Minister's message:

In presenting this 1972 Statistical Report for Ontario Provincial Parks, it is my hope that the information will be of assistance to individuals and organizations who need specific data on the heavy demands placed on Provincial Parks in this era of increasing leisure time.

Despite inclement weather during 1972, many parks continued at peak capacity, although total numbers of visitors and campers declined somewhat.

My Ministry will continue to make every effort to improve our facilities to provide a wide variety of recreational opportunities to the people of Ontario and visitors to our province.

A handwritten signature in dark ink, appearing to read "Leo Bernier". The signature is fluid and cursive, with a long horizontal stroke at the end.

Leo Bernier  
Minister of Natural Resources

## Introduction:

Page 2

Since 1944 the number of Provincial Parks has increased from only 8 to 115. In the past 10 years, alone, the number of Provincial Parks has increased by 29.

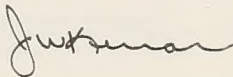

Last year, the number of visitors to parks decreased by 9.8%—reflecting remarkably bad weather. Rain dominated most of the season and the majority of weekends were rainy and cool.

However, despite the weather, 12,320,794 people visited our Provincial Parks including 1,498,479 campers, and as our data indicates, the large majority of these visits were made by Ontarians.

Services to park visitors were improved during the 1972 season. Many park facilities were upgraded, in keeping with the high maintenance standards necessary for the provision of a high quality recreation experience.

Yet our changing society continues to bring added challenges to the Provincial Park system. The increasing needs of millions of people for outdoor recreation are placing heavy demands on the Provincial Parks. Many families have to be turned away on busy weekends even though our facilities are expanded.

The Division of Parks will continue to direct itself to this challenge in forthcoming years. More parkland will be developed to expand and improve our parks system. The continuing trend to year-round use of recreational facilities will also help to ease the problem.

J. W. Keenan  
Executive Director  
Division of Parks

## HOW PROVINCIAL PARK STATISTICS ARE CALCULATED

Vehicle Entries are obtained by automatic traffic counters located at park gates. Periodic surveys are made to determine the average number of axles per vehicle and the average number of occupants per vehicle. These modified figures are used to calculate total visitation at each park:

$$\text{VEHICLE ENTRIES} = \frac{\text{Traffic count}}{\text{Average number of axles/vehicles}}$$

$$\text{VISITATION} = \text{Vehicle Entries} \times \begin{array}{l} \text{Average number} \\ \text{of people per} \\ \text{vehicle} \end{array}$$

Camper statistics are obtained from the data shown on campsite permits sold--number of campers, camper days, average length of stay.

July - August % Occupancy is calculated in the following way:

$$\% \text{ OCCUPANCY} = \frac{\text{Number of nights occupancy}}{\text{Number of campsites in park} \times 62 \text{ days}} \times 100$$

STATISTICAL COMPARISON: 1957 - 1972

## ONTARIO'S HISTORICAL PARKS

For the first time, visitor statistics for Ontario's historical parks are included in this report in order to give a more comprehensive overview of park visitation throughout the province.

Historical parks are authorized under The Historic Parks Act and are planned and operated by the Historic Sites Branch of the Division of Parks, Ministry of Natural Resources.

Statistics in this section include:

Ste. Marie Among the Hurons, Midland, Ont.

Museum of the Upper Lakes, Wasaga Beach, Ont.

Statistics for The Naval & Military Establishment, Penetanguishene, Ont. are not included in this report because this historic facility was closed to the public during the year for alterations. It will be re-opened to the public during 1973.

A new historic park—a reconstruction of the historic fur trading post at Fort William—will also be partially open to the public during 1973.

## HISTORICAL PARKS

(Historical Sites Branch only)

SAINTE-MARIE AMONG THE HURON (Maitland)SEASON:

<u>YEAR</u>	<u>OPERATING DAYS</u>	<u>ATTENDANCE</u>
1967	143	123,369

1971	143	15,712
1972	143	<u>14,121</u>

SITE TOTALS SINCE INITIAL OPENING		60,635
--------------------------------------	--	--------

- \* 1972 Off Season figures are up to and including March 31, 1973, but do not include period from April 1 to May 19 ( Saturday, Victoria Day week-end) as do the 1969, 1970 and 1971 years.

## ONTARIO'S PARKS COMMISSIONS

For the first time, visitor statistics for Ontario's three parks commissions are included in this report in order to give a more comprehensive overview of park visitation throughout the province.

Parks commissions are independent commissions of the province reporting to the Ontario Government through the Minister of Natural Resources. Each commission is governed by its own parks commission act and is directed by a board of commissioners.

Statistics included in this report are derived from a combination of counts and estimates for the latest period available. The fiscal year may be different from that of the Provincial Parks system.

The following parks commissions are included:

### The Niagara Parks Commission

James N. Allan, M.P.P., Chairman  
D. R. Wilson, General Manager

### The St. Lawrence Parks Commission

C. T. Rollins, M.P.P., Chairman  
D. M. Peacock, General Manager

### The St. Clair Parkway Commission\*

J. L. Kennedy, Chairman  
R. Brattain, General Manager

\* The St. Clair Parkway Commission is jointly funded by the Government of Ontario and the County of Lambton, the County of Kent, the City of Warram and the City of Chatham.

THE ST. CLAIR PARKWAY COMMISSION  
1972 Visitor Estimates (to Sept. 4)

DAY USE:

<u>Park</u>	<u>Visitors</u>
Cathcart	8,550
Guthrie	4,275
Lambton/Cundick	8,550
*Mitchell's Bay	17,100
Mooretown	-
Port Lambton	2,137
Reagan	2,850
*Sarnia Centennial	7,980
Seager	4,275
Willow	<u>10,260</u>
Total	65,977

CAMPING:

	<u>Visitors</u>
Cathcart Park (66 sites, 28 serviced with electricity)	
Campsites used	4,366
Campers	15,799
Camp visitors	<u>5,000</u>
1971 Campers	25,165
1970 Campers	9,557
	7,291
<u>ESTIMATED PARKWAY USE:</u>	
Day-use Parks	65,977
Campers	20,020
Golf Course	<u>15,000</u>
Total	100,997

This shows an approximate increase of 30% over figures for 1971.

\* Figures do not include special events at Sarnia (MacLean Bldg., soccer, centre board sailing) and Mitchell's Bay (ice fishing and snowmobiling).

There were 38 rainy days between June 1st and September 4th. It rained on 7 weekends during that period and on both days of 4 week ends. Rainfall was not considered above average by the local weather office.

In presenting this 1973 Statistical Report for Ontario Provincial Parks, it is my hope that the information will be of assistance to individuals and organizations who need specific data on the heavy demands placed on Provincial Parks in this era of increasing leisure time.

My Ministry will continue to make every effort to improve our facilities to provide a wide variety of recreational opportunities to the people of Ontario and visitors to our province.

Leo Bernier  
Minister of Natural Resources

Since 1944 the number of Provincial Parks has increased from only 8 to 115. In the past 10 years, alone, the number of Provincial Parks has increased by 29.

During the 1973 season 12,136,909 people visited our Provincial Parks including 1,600,817 campers, and as our data indicates, the large majority of these visits were made by Ontarians.

Services to park visitors were improved during the 1973 season. Many park facilities were upgraded, in keeping with the high maintenance standards necessary for the provision of a high quality recreation experience.

Yet our changing society continues to bring added challenges to the Provincial Park system. The increasing needs of millions of people for outdoor recreation are placing heavy demands on the Provincial Parks. Many families have to be turned away on busy weekends even though our facilities are expanded.

The Division of Parks will continue to direct itself to this challenge in forthcoming years. More parkland will be developed to expand and improve our parks system. The continuing trend to year-round use of recreational facilities will also help to ease the problem.

J.W. Keenan  
Executive Director  
Division of Parks

VEHICLE ENTRIES are obtained by automatic traffic counters located at park gates. Periodic surveys are made to determine the average number of axles per vehicle and the average number of occupants per vehicle. These modified figures are used to calculate total visitation at each park:

$$\text{VEHICLE ENTRIES} = \frac{\text{Traffic count}}{\text{Average number of axles/vehicles}}$$

$$\text{VISITATION} = \text{Vehicle Entries} \times \text{Average number of people per vehicle}$$

CAMPER statistics are obtained from the data shown on campsite permits sold - number of campers, camper days, average length of stay.

JULY - AUGUST % OCCUPANCY is calculated in the following way:

$$\% \text{ OCCUPANCY} = \frac{\text{Number of nights occupancy}}{\text{Number of campsites in park} \times 62 \text{ days}} \times 100$$

STATISTICAL COMPARISON  
1957 - 1973

\* Not included in General Park Visitor Statistics

Visitor statistics for Ontario's historical parks are included in this report in order to give a more comprehensive overview of park visitation throughout the province.

Historical parks are authorized under The Historic Parks Act and are planned and operated by the Historic Sites Branch of the Division of Parks, Ministry of Natural Resources.

Statistics in this section include:  
Ste. Marie Among the Hurons, Midland, Ont.  
Museum of the Upper Lakes, Wasaga Beach, Ont.  
Fort William Historical Park, Thunder Bay, Ont.  
Royal Naval and Military Establishments,  
Penetanguishene, Ont.

Visitor statistics for Ontario's three parks commissions are included in this report in order to give a more comprehensive overview of park visitation throughout the province.

Parks commissions are independent commissions of the province reporting to the Ontario Government through the Minister of Natural Resources. Each commission is governed by its own parks commission act and is directed by a board of commissioners.

Statistics included in this report are derived from a combination of counts and estimates for the latest period available. The fiscal year may be different from that of the Provincial Parks system.

The following parks commissions are included:

The Niagara Parks Commission  
James N. Allan, M.P.P., Chairman  
D.R. Wilson, General Manager

The St. Lawrence Parks Commission  
C.T. Rollins, M.P.P., Chairman  
J.R. Sloan, General Manager

The St. Clair Parkway Commission\*  
J.L. Kennedy, Chairman  
R.F. Harrison, General Manager

\* The St. Clair Parkway Commission is jointly funded by the Government of Ontario and the County of Lambton, the County of Kent, the City of Sarnia and the City of Chatham.

## ESTIMATED PARKWAY USE

## ST. CLAIR PARKWAY COMMISSION

Page 61

1973 VISITOR ESTIMATES  
(to September 4)

		Location	Day-use Visitors	Camping	Visitors
Day-use Parks	70,000	Cathcart	9,000	Cathcart Park	
Campers	15,780	Guthrie	4,500	(66 Sites, 35 serviced with Electricity)	
Golf Course	18,240	Lambton-Cundick	9,000		
Total	103,020	* Mitchell's Bay	18,000	Campsites used	3,523
		Mooretown	1,000	Campers	11,780
		Port Lambton	2,500	Camp Visitors	4,000
		Reagan	3,000		19,303
		* Sarnia Centennial	8,000		
		Seager	4,500	1972 Campers	15,799
		Willow	10,500	1971 Campers	9,557
		Total	70,000		

This shows an approximate increase of 2%  
over figures for 1972

\* Figures do not include special events at  
Sarnia (MacLean Bldg., soccer, centre  
board sailing) and Mitchell's Bay (ice  
fishing and snowmobiling).

There were 34 rainy days between June 1st and  
September 4th. It rained on 5 weekends during  
that period and on both days of 3 weekends.  
Rainfall was not considered above average by  
the local weather office.

MINISTER'S MESSAGE

In presenting this 1974 Statistical Report for Ontario Provincial Parks, it is my hope that the information will be of assistance to individuals and organizations who need specific data on the heavy demands placed on Provincial Parks in this era of increasing leisure time.

My Ministry will continue to make every effort to improve our facilities to provide a wide variety of recreational opportunities to the people of Ontario and visitors to our province.

Leo Bernier  
Minister of Natural Resources

INTRODUCTION

Since 1944 the number of Provincial Parks has increased from only 8 to 117. In the past 10 years, alone, the number of Provincial Parks has increased by 30.

During the 1974 season 11,031,651 people visited our Provincial Parks including 1,617,707 campers, and as our data indicates, the large majority of these visits were made by Ontarians.

Services to park visitors were improved during the 1974 season. Many park facilities were upgraded, in keeping with the high maintenance standards necessary for the provision of a high quality recreation experience.

Yet our changing society continues to bring added challenges to the Provincial Park system. The increasing needs of millions of people for outdoor recreation are placing heavy demands on the Provincial Parks. Many families have to be turned away on busy weekends even though our facilities are expanded.

The Division of Parks will continue to direct itself to this challenge in forthcoming years. More parkland will be developed to expand and improve our parks system. The continuing trend to year-round use of recreational facilities will also help to ease the problem.

W. Keenan  
Executive Director  
Division of Parks

HOW PROVINCIAL PARK  
STATISTICS ARE CALCULATED

Page 2

VEHICLE ENTRIES are obtained by automatic traffic counters located at park gates. Periodic surveys are made to determine the average number of axles per vehicle and the average number of occupants per vehicle. These modified figures are used to calculate total visitation at each park:

$$\text{VEHICLE ENTRIES} = \frac{\text{Traffic count}}{\text{Average number of axles/vehicle}}$$

$$\text{VISITATION} = \text{Vehicle Entries} \times \text{Average number of people per vehicle}$$

CAMPER statistics are obtained from the data shown on campsite permits sold - number of campers, camper days, average length of stay.

JULY - AUGUST % OCCUPANCY is calculated in the following way:

$$\% \text{ OCCUPANCY} = \frac{\text{Number of nights occupancy}}{\text{Number of campsites in park} \times 62 \text{ days}} \times 100$$

STATISTICAL COMPARISON  
1960 - 1974

PROVINCIAL PARK USER SURVEY

In 1974, a continuing program was initiated to survey on a regular basis, users of Provincial Parks. Purpose of the program is to provide information vital to the planning and management of Provincial Parks. Under this program, parks are to be surveyed on a cyclical basis, each year of the cycle involving a different group of parks. The program in 1974 involved a pilot survey of day visitors in eleven Provincial Parks. The following tables summarize the highlights of this survey.

DAY VISITOR GROUP TYPES (By Park)\*

Type of Group	Arrow-head	Sibbald	Earl Rowe	Carillon	Outlet	Sand-Banks	Bon Echo	Kakabeka	Windy Lake	Cyprus Lake	Rondeau	All Survey Parks
Family Group	60.3	59.0	60.2	49.8	57.7	58.4	63.3	63.7	53.0	55.7	56.3	57.8

\* Not included in General  
Park Visitor Statistics

Visitor statistics for Ontario's historical parks are included in this report in order to give a more comprehensive overview of park visitation throughout the province.

Historical parks are authorized under The Historic Parks Act and are planned and operated by the Historic Sites Branch of the Division of Parks, Ministry of Natural Resources.

Statistics in this section include:  
Ste. Marie Among the Hurons, Midland, Ont.  
Museum of the Upper Lakes, Wasaga Beach, Ont.  
Fort William Historical Park, Thunder Bay, Ont.  
Royal Naval and Military Establishments,  
Penetanguishene, Ontario

## HISTORICAL PARKS

## Historical Sites Branch only

\* 1972 - 1974 Off Season figures are up to and including March 31, but do not include the period from April 1 to the Victoria Day week-end as do the 1969, 1970 and 1971 years.

	Year	Operating Days	Attendance		Year	Operating Days	Attendance

Initial Opening			1,081,578	Season	1974	108	11,012

Visitor statistics for Ontario's three parks commissions are included in this report in order to give a more comprehensive overview of park visitation throughout the province.

Parks commissions are independent commissions of the province reporting to the Ontario Government through the Minister of Natural Resources. Each commission is governed by its own parks commission act and is directed by a board of commissioners.

Statistics included in this report are derived from a combination of counts and estimates for the latest period available. The fiscal year may be different from that of the Provincial Parks system.

The following parks commissions are included:

The Niagara Parks Commission  
James N. Allan, M.P.P., Chairman  
D.R. Wilson, General Manager

The St. Lawrence Parks Commission  
C.T. Rollins, M.P.P., Chairman  
J.R. Sloan, General Manager

The St. Clair Parkway Commission \*  
J.L. Kennedy, Chairman  
R.F. Harrison, General Manager

\* The St. Clair Parkway Commission is jointly funded by the Government of Ontario and the County of Lambton, the County of Kent, the City of Sarnia and the City of Chatham.

ST. CLAIR PARKWAY COMMISSION  
1974 STATISTICS

Page 70

CATHCART PARK

Useage By Area:

St. Clair Parkway	75.1%
USA	9.8%
Other parts of Ontario	13.8%
Other Provinces	1.3%

Average Length of Stay:

3 Days or less	91.6%
4 - 7 days	8.0%
8 - 14 days	.4%

Cathcart Day Use:

2,982 People  
25 Picnics

PARKWAY AREA BREAKDOWN:

Kent	72.2%
Chatham	7.6%
Lambton	7.9%
Sarnia	12.3%

Total Number of Permits Sold	2,025
Revenue	\$15,550.50
Occupied Sites	3,690
Number of People	14,272

Average number of people per site	3.86
Average Length of Stay	1.82 days

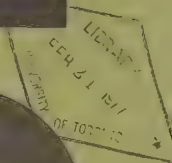

Use of Cathcart Park is generally the same as in 1973. The Park is still used as a mini-vacation area for Parkway residents with over 90% of the campers staying three (3) days or less. The most noticeable difference in the information collected was that 75% of the campers were from the Parkway area, an increase of some 20% over 1973.

## MINISTER'S MESSAGE

In presenting this 1975 Statistical Report for Ontario Provincial Parks, it is my hope that the information will be of assistance to individuals and organizations who need specific data on the heavy demands placed on Provincial Parks in this era of increasing leisure time.

My Ministry will continue to make every effort to improve our facilities to provide a wide variety of recreational opportunities to the people of Ontario and visitors to our province.

Leo Bernier  
Minister of Natural Resources

## INTRODUCTION

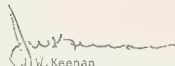

Since 1944 the number of Provincial Parks has increased from only 8 to 121. In the past 10 years, alone, the number of Provincial Parks has increased by 34.

During the 1975 season 11,139,864 people visited our Provincial Parks including 1,621,887 campers and as our data indicates, the large majority of these visits were made by Ontarians.

Services to park visitors were improved during the 1975 season. Many park facilities were upgraded, in keeping with the high maintenance standards necessary for the provision of a high quality recreation experience.

Yet our changing society continues to bring added challenges to the Provincial Park system. The increasing needs of millions of people for outdoor recreation are placing heavy demands on the Provincial Parks. Many families have to be turned away on busy weekends even though our facilities are expanded.

The Division of Parks will continue to direct itself to this challenge in forthcoming years. More parkland will be developed to expand and improve our parks system. The continuing trend to year-round use of recreational facilities will also help to ease the problem.

J. W. Keenan  
Executive Director  
Division of Parks

HOW PROVINCIAL PARK  
STATISTICS ARE CALCULATED

Page 2

VEHICLE ENTRIES are obtained by automatic traffic counters located at park gates. Periodic surveys are made to determine the average number of axles per vehicle and the average number of occupants per vehicle. These modified figures are used to calculate total visitation at each park:

VEHICLE ENTRIES =  $\frac{\text{Traffic count}}{\text{Average number of axles/vehicle}}$

VISITATION = Vehicle Entries x average number of people per vehicle

CAMPER statistics are obtained from the data shown on campsite permits sold - number of campers, camper days, average length of stay.

JULY - AUGUST % OCCUPANCY is calculated in the following way:

% OCCUPANCY =  $\frac{\text{Number of nights occupancy}}{\text{Number of campsites in park} \times 62 \text{ days}} \times 100$

# STATISTICAL COMPARISON

1960 - 1975

#### PROVINCIAL PARK USER SURVEYS

In 1974, a continuing program was initiated to survey provincial park users on a regular basis. Purpose of the program is to provide information vital to the planning and management of Provincial Parks. Under this program, parks are surveyed on a cyclical basis, each year of the cycle involving a different group of parks. The program in 1974 and 1975 involved a survey of day visitors and campers in Provincial Parks. The following tables summarize the highlights of these surveys.

## DAY VISITOR GROUP TYPES (by Park)\*

Type of Group	Arrowhead	Sibbald	Earl Rowe	Carillon	Outlet	Sandbanks	Bon Echo	Katabeka	Windy Lake	Cyrus Lake	Rondeau	Killbear	Six Mile	Rushing River	Remi Lake	Kettle Lake	Wheatley

\* The "Special Group" classification represents the number of school children who visited the Parks as an organized educational activity.

\*\* In an effort to improve communications between park staff and the public, Visitor Services staff are spending more time mixing informally with park visitors. The number of people they conversed with is tabulated as "Informal Contacts".

Note #1: In addition to the personal services tabulated above, Visitor Services Staff distributed 938,632 copies of 318 park-produced publications. They also distributed 833,894 publications produced by other government agencies or local community enterprises. This represents a new effort to inform visitors about things to do and see in and near provincial parks.

Note #2: Comparisons are best made between parks of the same classification.

Visitor statistics for Ontario's three parks commissions are included in this report in order to give a more comprehensive overview of park visitation throughout the province.

Parks commissions are independent commissions of the province reporting to the Ontario Government through the Minister of Natural Resources. Each commission is governed by its own parks commission act and is directed by a board of commissioners.

Statistics included in this report are derived from a combination of counts and estimates for the latest period available. The fiscal year may be different from that of the Provincial Parks system.

The following parks commissions are included:

The Niagara Parks Commission  
James N. Allan, M.P.P., Chairman  
D.R. Wilson, General Manager

The St. Lawrence Parks Commission  
C.T. Rollins, M.P.P., Chairman  
J.R. Sloan, General Manager

The St. Clair Parkway Commission \*  
J.L. Kennedy, Chairman  
R.F. Harrison, General Manager

\* The St. Clair Parkway Commission is jointly funded by the Government of Ontario and the County of Lambton, the County of Kent, the City of Sarnia and the City of Chatham.

## NIAGARA PARKS COMMISSION STATISTICS 1975

QUEEN VICTORIA PARK  
10 Year Traffic Count

Year	Number of Vehicles
1975	3,198,905
1974	3,287,770
1973	3,385,319
1972	3,360,870
1971	3,508,133
1970	3,535,407
1969	3,368,439
1968	3,210,338
1967	3,090,707
1966	3,097,576

# NIAGARA PARKS COMMISSION STATISTICS 1975

## Total Traffic Encountered In the Niagara Parks System

Year	Number of Vehicles
1975	5,495,143*
1974	5,677,179
1973	6,056,326
1972	5,619,928
1971	6,152,189
1970	5,901,252
1969	5,757,515
1968	5,533,852
1967	4,979,067
1966	4,602,242

\* Traffic is counted in four major sections of the Parks System, during the period of April 1 to October 31 only.

### Traffic Count for 1975:

Queen Victoria Park	3,198,905
North Boulevard	1,589,203
South Boulevard	653,139
Stoney Creek Park	53,896
